

5TH CATEGORY - HISTORIC RACING

GROUP N

APPROVED VEHICLE SPECIFICATION

This form details the approved specifications of individual vehicle models in the 5th Category Historic car group. To be issued with an Historic Log Book, cars need to comply with these specifications, the physical appearance shown in the illustrations and the general historic rules as detailed in the current Motorsport Australia Manual.

| Make of Car:                         | Ford         | Model: | Lotus Cortina Mark 1 |
|--------------------------------------|--------------|--------|----------------------|
| Period of Original Manufacture:      | 1963-1966    |        |                      |
| Motorsport Australia Historic Group: | Nb           |        |                      |
| Date of Issue of this Document:      | 1 January 20 | 024    |                      |

Refer to The *Manual*, Historic Appendix, Vehicle Eligibility, General Requirements & Historic Touring Cars Group N Regulations for permitted modifications.

## SECTION 1 - CHASSIS

### **CHASSIS**

| Description:                    | Unitary construction  |  |  |
|---------------------------------|---|--|--|
| Period of Manufacture:          | 1963-1965   |  |  |
| Manufacturer:                   | Ford  |  |  |
| <b>Chassis Number From:</b>     | Z74C002368K (not applicable for "specification only" cars)                  |  |  |
| <b>Chassis Number location:</b> | On I/D plate in engine compartment  |  |  |
| Material:                       | Steel with aluminium-alloy skinned swinging panels                          |  |  |
| Comments                        | This specification sheet relates to the "Coil over/A Frame" rear suspension |  |  |
|                                 | cars using both the early body and the 'Aeroflow Ventilation' model         |  |  |
|                                 | introduced in September 1964.   |  |  |

# **FRONT SUSPENSION**

| Description:           | Independen   | Independent - by MacPherson strut with torque reactor and stabiliser bar |  |    |
|------------------------|--------------|--|--|----|
| Spring Medium:         | Coil         | Coil   |  |    |
| Damper Type:           | Telescopic o | Telescopic double acting integrated Adjustable: No                       |  |    |
| Anti-sway bar:         | Yes          | Yes  |  | No |
| Suspension adjustable: | Yes          | Yes Method:  |  |    |
| Comments:              | Refer to App | Refer to Appendix A.   |  |    |

# **REAR SUSPENSION**

| Description:           | Live axle lo | Live axle located by upper trailing arms and lower A-frame. |             |     |
|------------------------|--------------|---|-------------|-----|
| Spring Medium:         | Coil over d  | Coil over damper units.                                     |             |     |
| Damper Type:           | Telescopic   |   | Adjustable: | No  |
| Anti-sway bar:         | No           | No  |             | N/A |
| Suspension adjustable: | No           | No Method:  |             |     |
| Comments:              | Refer to Ap  | Refer to Appendix A.  |             |     |

# STEERING

| Type:    | Recirculating ball                                | Make: | Ford |  |
|----------|---|-------|------|--|
|          | 2.5 turns lock to lock                            |       |      |  |
| Comments | Original form including rod ends must be retained |       |      |  |

## **BRAKES**

|                               | Front            | Rear          |  |
|-------------------------------|------------------|---------------|--|
| Туре:                         | Disc, solid      | Drum          |  |
| Dimensions:                   | 12.7 mm x 244 mm | 229 x 44.5 mm |  |
| Material of drum/disc:        | Cast iron        | Cast iron     |  |
| No. cylinders/pots per wheel: | Two              | One           |  |
| Actuation:                    | Hydraulic        | Hydraulic     |  |
| Caliper make:                 | Girling          |               |  |
| Caliper type:                 | Single Cylinder  |               |  |
| Material:                     | Cast iron        |               |  |
| Master cylinder make:         | Girling          |               |  |
| Туре:                         | Single           |               |  |
| Adjustable bias:              | None             |               |  |
| Servo Fitted:                 | No               |               |  |
| Comments:                     | None             |               |  |

### **SECTION 2 - ENGINE**

## **ENGINE**

| Make:                    | Ford   | Ford                                |          |  |  |
|--------------------------|--|-------------------------------------|----------|--|--|
| Model:                   | Pre - cross flow type  | Pre - cross flow type               |          |  |  |
| No. cylinders:           | Four   | Configuration:                      | In-line  |  |  |
| Cylinder Block-material: | Cast iron  | Two/Four Stroke:                    | Four     |  |  |
| Bore - Original:         | 82.55 mm   | Max allowed:                        | 84.05 mm |  |  |
| Stroke - original:       | 72.8 mm  | Max allowed:                        | 72.8 mm  |  |  |
| Capacity - original:     | 1558 cc  | 1558 cc <b>Max allowed:</b> 1616 cc |          |  |  |
| Identifying marks:       | 120E-6015  | 120E-6015                           |          |  |  |
| Cooling method:          | Liquid   | Liquid                              |          |  |  |
| Comments:                | Any 7.78" height deck block with the following Engine Casting Block number: 116E-6015BA, 118E-6015BA, 120E-6015, 120E-6015BA, 2731-6015BA, 3020-6015BA, 681F-6015BA, 701M-6015BA, as well as new Ford Motorsport block Part number M-6010-16L. |                                     |          |  |  |

### **CYLINDER HEAD**

| Make:                   | Lotus Ford  |             |                               |              |       |
|-------------------------|---|-------------|-------------------------------|--------------|-------|
| No. of valves/cylinder: | Two   | Inlet:      | One                           | Exhaust:     | One   |
| No. of ports total:     | Eight   | Inlet:      | Four                          | Exhaust:     | Four  |
| No. of camshafts:       | Two   | Location:   | Overhead                      | Drive:       | Chain |
| Valve actuation:        | Direct  | from camsha | ft via buckets                |              |       |
| Spark plugs/cylinder:   | One   |             |                               |              |       |
| Identifying marks:      | Lotus part number A26E311 & foundry batch number (e.g., WM9403 -        |             |                               |              |       |
|                         | the William Mills Foundry cast the heads) adjoin the gasket surface on  |             |                               |              |       |
|                         | the exhaust side (visible on an assembled engine using a mirror).       |             |                               |              |       |
| Comments:               | The cylinder head manufactured by SAS Engineering may be used to        |             |                               |              |       |
|                         | replace original Lotus heads. Modified original or replacement          |             |                               |              |       |
|                         | aftermarket timing chests incorporating a removable water pump are      |             |                               |              |       |
|                         | acceptable.   |             |                               |              |       |
|                         | The Group Nb regulations allow the use of any original production Lotus |             |                               |              |       |
|                         | twin cam cylinder head, including those manufactured for the Escort     |             |                               |              |       |
|                         | Twin C  | am (rename  | d Escort GT 1600 in Australia | circa 1970). |       |

## **LUBRICATION**

| Method:              | Wet sump external oil pump driven off idler cam located in cylinder block | Oil tank location: | N/A |
|----------------------|---|--------------------|-----|
| Dry sump pump type:  | N/A   | Location:          | N/A |
| Oil cooler standard: | No  | Location:          | N/A |
| Comments:            | None  |                    |     |

# **IGNITION SYSTEM**

| Type:  | Points, coil and distributor |  |
|--|------------------------------|--|
| Make:  | Lucas/Autolite               |  |
| Comments Breakerless electronic ignition permitted |                              |  |

# **FUEL SYSTEM**

| Carburettor Make:    | Weber   | Model: | 40DCOE |
|----------------------|---------|--------|--------|
| Carburettor Number:  | Two     |        |        |
| Size:                | Various |        |        |
| Fuel injection Make: | N/A     | Type:  | N/A    |
| Supercharged:        | No      | Type:  | N/A    |
| Comments:            | None    |        |        |

### **SECTION 3 - TRANSMISSION**

## **CLUTCH**

| Make:          | Ford      |
|----------------|-----------|
| Type:          | Dry plate |
| Diameter:      | 203 mm    |
| No. of Plates: | One       |
| Actuation:     | Hydraulic |
| Comments:      | None      |

## **TRANSMISSION**

| Type:                         | Synchromesh  |  |  |
|-------------------------------|--|--|--|
| Make:                         | Ford – Type 2000E with remote shifter (118E/Lotus is the stamp |  |  |
|                               | number)  |  |  |
|                               | Refer Appendix A   |  |  |
| Gearbox location:             | Behind engine  |  |  |
| No. forward speeds:           | Four   |  |  |
| Gearchange type and location: | Remote change in extension housing                             |  |  |
| Case material:                | Cast iron with separate alloy bell housing                     |  |  |
| Identifying marks:            | N/A  |  |  |
| Comments:                     | Aluminium drive line components Homologated for MK 1 Lotus     |  |  |
|                               | Cortinas are not legal for other models.                       |  |  |

# FINAL DRIVE

| Make:              | Ford                        | Model:                               | 'English 'Banjo type |  |  |
|--------------------|-----------------------------|--------------------------------------|----------------------|--|--|
| Type:              | Live rear axle, Semi floati | Live rear axle, Semi floating hypoid |                      |  |  |
| Ratios:            | Various                     | Various                              |                      |  |  |
| Differential type: | Semi floating hypoid        | Semi floating hypoid                 |                      |  |  |
| Comments:          | None                        |                                      |                      |  |  |

## TRANSMISSION SHAFTS (EXPOSED)

|              | •   |
|--------------|---|
| Number:      | One or two piece.                                 |
| Location:    | Gearbox to final drive                            |
| Description: | Tubular and Open tail shaft with twin uni joints. |
| Comments:    | One   |

## **WHEELS & TYRES**

| Wheel type - Original:  | Pressed disc              | Material - Original: |   | Steel      |
|-------------------------|---------------------------|----------------------|---|------------|
| Wheel type - Allowed:   | Steel                     | Material - Allowed:  |   | Steel      |
